THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1829/2003 of the European Parliament and of the Council of 22 September 2003 on genetically modified food and feed¹, and in particular Articles 11(3) and 23(3) thereof,

Whereas:

- (1) Commission Implementing Decision (EU) 2015/2279² authorised the placing on the market of food and feed containing, consisting of, or produced from genetically modified maize NK603 × T25. The scope of that authorisation also covered the placing on the market of products other than food and feed containing or consisting of genetically modified maize NK603 × T25, for the same uses as any other maize, with the exception of cultivation.
- (2) On 19 April 2024, Bayer Agriculture BV, based in Belgium, on behalf of Bayer CropScience LP, based in the United States, ('the applicant') submitted an application to the Commission for the renewal of that authorisation.
- (3) On 27 November 2025, the European Food Safety Authority ('the Authority') issued a favourable scientific opinion on genetically modified maize NK603 × T25³ in accordance with Articles 6 and 18 of Regulation (EC) No 1829/2003. It concluded that the renewal application did not contain evidence of any new hazards, modified exposure

or scientific uncertainties that would change the conclusions of the original risk assessment on genetically modified maize NK603 × T25, adopted by the Authority in 2015⁴.

- (4) In its scientific opinion, the Authority considered all the questions and concerns raised by the Member States in the context of the consultation of the national competent authorities, as provided for in Article 6(4) and Article 18(4) of Regulation (EC) No 1829/2003.
- (5) The Authority also concluded that the monitoring plan for environmental effects, consisting of a general surveillance plan, as submitted by the applicant, is in line with the intended uses of the products containing or consisting of genetically modified maize NK603 × T25.
- (6) Taking into account the Authority's conclusions, the authorisation for the placing on the market of food and feed containing, consisting of, or produced from genetically modified maize NK603 × T25 and of products containing or consisting of genetically modified maize NK603 × T25, for uses other than food and feed, with the exception of cultivation, should be renewed.
- (7) By the letter of 19 January 2026, Bayer Agriculture B.V., based in Belgium, informed the Commission that Bayer CropScience LP converted its legal form and changed its name to Bayer CropScience LLC as of 1 January 2026.
- (8) A unique identifier has been assigned to genetically modified maize NK603 × T25 in accordance with Commission Regulation (EC) No 65/2004⁵, in the context of the initial authorisation by Decision (EU) 2015/690. That unique identifier should continue to be used.
- (9) As regards the products covered by this Decision, no specific labelling requirements other than those provided for in Article 13(1) and Article 25(2), points (a) and (b), of Regulation (EC) No 1829/2003 and in Article 4(6) of Regulation (EC) No 1830/2003 of the European Parliament and of the Council⁶, appear to be necessary. However, in order to ensure that the use of products containing or consisting of genetically modified maize NK603 × T25 remains within the limits of the authorisation granted by this Decision, the labelling of such products, with the exception of food and food ingredients, should contain a clear indication that they are not intended for cultivation.
- (10) The authorisation holder should submit annual reports on the implementation and on the results of the activities set out in the monitoring plan for environmental effects. Those

- (11) The opinion of the Authority does not justify the imposition of specific conditions or restrictions for the placing on the market, for the use and handling, including post-market monitoring requirements regarding the consumption of food and feed containing, consisting of, or produced from genetically modified maize NK603 × T25, or for the protection of particular ecosystems or the environment and/or geographical areas, as provided for in Article 6(5), point (e), and Article 18(5), point (e), of Regulation (EC) No 1829/2003.
- (12) All relevant information on the authorisation of the products covered by this Decision should be entered in the Community register of genetically modified food and feed referred to in Article 28(1) of Regulation (EC) No 1829/2003.
