

Figures

Figure 1 (Analysis 1.1)

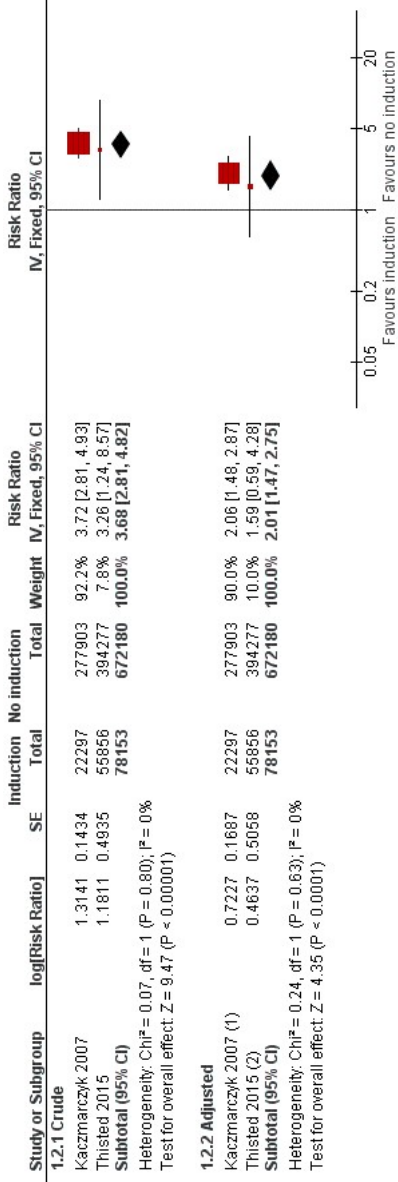

Footnotes

(1) Oxytocin and/or PGs, crude analysis

Forest plot of comparison: 1 Induction vs. no induction, outcome: 1.1 Abruptio placentae.

Figure 2 (Analysis 1.2)

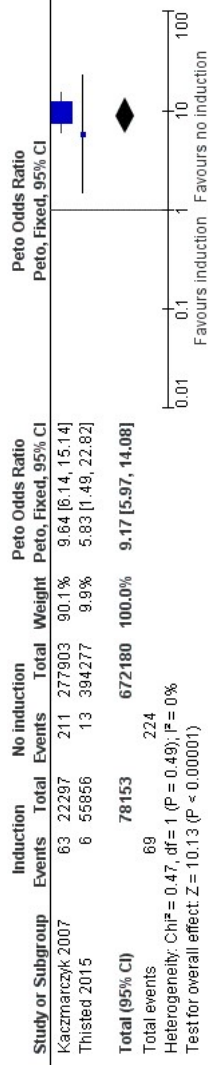

Footnotes

(1) Covariates (Caesarean section in first delivery, Vaginal instrumental second delivery, Birthweight second delivery (g), Gestational age in second delivery...)
 (2) Covariates (parity, Induction of labour, augmentation by oxytocin and epidural analgesia)

Forest plot of comparison: 1 Induction vs. no induction, outcome: 1.2 Uterine rupture.

Figure 3 (Analysis 1.3)

Forest plot of comparison: 1 Induction vs. no induction, outcome: 1.3 Uterine rupture _Peto.
