COMMISSION IMPLEMENTING REGULATION (EU) .../...

of XXX

**concerning the authorisation of peppermint tincture from *Mentha × piperita* L., wild
thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. as
feed additives for all animal species**

(Text with EEA relevance)

COMMISSION IMPLEMENTING REGULATION (EU) .../...

of XXX

concerning the authorisation of peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. as feed additives for all animal species

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1831/2003 of the European Parliament and of the Council of 22 September 2003 on additives for use in animal nutrition¹, and in particular Article 9(2) thereof,

Whereas:

- (1) Regulation (EC) No 1831/2003 provides for the authorisation of additives for use in animal nutrition and for the grounds and procedures for granting such an authorisation. Article 10(2) of that Regulation provides for the re-evaluation of additives authorised pursuant to Council Directive 70/524/EEC².
- (2) The substances peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. were authorised without a time limit in accordance with Directive 70/524/EEC as feed additives for all animal species. Those substances were subsequently entered in the Register of Feed Additives as existing products, in accordance with Article 10(1), point (b), of Regulation (EC) No 1831/2003.
- (3) In accordance with Article 10(2) of Regulation (EC) No 1831/2003, in conjunction with Article 7 thereof, an application was submitted for the authorisation of peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. as feed additives for all animal species, requesting the additives to be classified in the additive category 'sensory additives' and in the functional group 'flavouring compounds'. The application was accompanied by the particulars and documents required under Article 7(3) of Regulation (EC) No 1831/2003.
- (4) The applicant requested the substances concerned to be authorised also for use in water for drinking. However, Regulation (EC) No 1831/2003 does not allow the authorisation of 'flavouring compounds' for use in water for drinking. Therefore, the use of these additives in water for drinking should not be allowed.

² Council Directive 70/524/EEC of 23 November 1970 concerning additives in feedingstuffs (OJ L 270, 14.12.1970, p. 1, ELI: <http://data.europa.eu/eli/dir/1970/524/oj>).

Feltkode ændret

- (5) The European Food Safety Authority ('the Authority') concluded in its opinions of 24 June 2025³ and 25 June 2025^{4,5}, that peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. are safe at certain maximum concentrations further specified in these opinions for each animal species. The Authority further concluded that the use of peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. under the proposed conditions is safe for consumers and the environment. The Authority also concluded that peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. should be considered irritants to skin and eyes, and dermal and respiratory sensitisers, and any exposure is considered a risk. In addition, the Authority concluded that since the leaves of *Mentha × piperita* L., *Thymus serpyllum* L., *Salvia officinalis* L. and preparations thereof are recognised to flavour food and their function in feed would be essentially the same as that in food, no further demonstration of efficacy is considered necessary. It also verified the report on the method of analysis of the feed additives in feed submitted by the Reference Laboratory set up by Regulation (EC) No 1831/2003.
- (6) In view of the above, the Commission considers that peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L. satisfy the conditions provided for in Article 5 of Regulation (EC) No 1831/2003. Accordingly, the use of those substances should be authorised as specified in the Annex to this Regulation. In addition, the Commission considers that appropriate protective measures should be taken to prevent adverse effects on the health of the users of the additives.
- (7) The Commission considers that safety reasons do not require the setting of maximum levels for peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L.. In order to allow better control, the recommended maximum content should be indicated on the label of the feed additives. Where the recommended maximum content is exceeded, certain information should be indicated on the label of the premixtures concerned.
- (8) Since safety reasons do not require the immediate application of the modifications to the conditions of authorisation of the substances concerned, it is appropriate to provide for a transitional period for interested parties to prepare themselves to meet the new requirements resulting from the authorisation.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

HAS ADOPTED THIS REGULATION:

Article 1 **Authorisation**

The substances specified in the Annex, belonging to the additive category 'sensory additives' and to the functional group 'flavouring compounds', are authorised as additives in animal nutrition, subject to the conditions laid down in that Annex.

Article 2

Transitional measures

1. The feed additives peppermint tincture from *Mentha × piperita* L., wild thyme tincture from *Thymus serpyllum* L. and sage tincture from *Salvia officinalis* L., as authorised pursuant to Directive 70/524/EEC, and premixtures containing these additives, which are produced and labelled before [6 months from the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] in accordance with the rules applicable before [the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] may continue to be placed on the market and used until the stocks concerned are exhausted.
2. Compound feed and feed materials containing the feed additives referred to in paragraph 1, which are produced and labelled before [12 months from the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] in accordance with the rules applicable before [the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] may continue to be placed on the market and used until the stocks concerned are exhausted if they are intended for food-producing animals.
3. Compound feed and feed materials containing the feed additives referred to in paragraph 1, which are produced and labelled before [24 months from the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] in accordance with the rules applicable before [the date of entry into force of this Regulation – Date to be inserted by the Service responsible for the publication] may continue to be placed on the market and used until the stocks concerned are exhausted if they are intended for non-food producing animals.

Article 3

Entry into force

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels,

For the Commission
The President
Ursula VON DER LEYEN
