ANNEX

Identi- fication number of the additive	Additive	Composition, chemical formula, description, analytical method	Species or category of animal	Maximum age	Minimum content	Maximum content	Other provisions	End of period of					
					CFU of additive/kg of fresh material		Conc. provisions	authorisa- tion					
Category of technological additives. Functional group: silage additives													
1k20759	Lactobacillus buchneri DSM 29026	Additive composition: Preparation of Lactobacillus buchneri DSM 29026 containing a minimum of 2 × 10 ¹⁰ CFU/g additive. Characterisation of the active substance: Viable cells of Lactobacillus buchneri DSM 29026. Analytical method ¹ Identification: Pulsed Field Gel Electrophoresis (PFGE) Enumeration in the feed additive: Spread plate method on MRS agar (EN 15787).	All animal species	-		-	 In the directions for use of the additive and premixtures, the storage conditions shall be indicated. Minimum content of the additive when used without combination with other microorganisms as silage additives: 5×10⁷ CFU/kg of easy and moderately difficult to ensile fresh material². For users of the additive and premixtures, feed business operators shall establish operational procedures and organisational measures to address potential risks resulting from its use. Where those risks cannot be eliminated or reduced to a minimum by such procedures and measures, the additive and premixtures shall 	[to be completed by the Service responsible for the publication: insert precise date] [10 years from the date of entry into force of this Regulation]					

Details of the analytical methods are available at the following address of the Reference Laboratory: https://ec.europa.eu/jrc/en/eurl/feed-additives/evaluation-reports.

Easy to ensile forage: > 3 % soluble carbohydrates in fresh material; moderately difficult to ensile forage: 1,5-3,0 % soluble carbohydrates in the fresh material in accordance with Commission Regulation (EC) No 429/2008 of 25 April 2008 on detailed rules for the implementation of Regulation (EC) No 1831/2003 of the European Parliament and of the Council as regards the preparation and the presentation of applications and the assessment and the authorisation of feed additives (OJ L 133, 22.5.2008, p. 1).
