In the directions for use of the additive and premixtures, the storage conditions shall be indicated. 2. Minimum content of the additive when used without combination with other micro-organisms as silage additives: 1×10^8 CFU/kg of easy and moderately difficult to ensile fresh material². 3. For users of the additive and premixtures, feed business operators shall establish operational procedures and organisational measures to address potential risks resulting from its use. Where those risks cannot be eliminated or reduced to a minimum by such procedures and measures, the additive and premixtures shall 	<p style="text-align: center;"><i>[to be completed by the Service responsible for the publication: insert precise date]</i></p> <p style="text-align: center;"><i>[10 years from the date of entry into force of this Regulation]</i></p>
